Gavin (9) and Jake (6) are brothers with a lot in common. They both love being in the water, they adore their little sister and they both have cystic fibrosis.

Meet Gavin and Jake. They are brothers living with cystic fibrosis (CF). Become a *CureFinder* today and raise money to help find a cure for CF.

Cystic fibrosis is a disease that steals time. While other children are still sleeping in the morning before school, Gavin and Jake are up doing chest physical therapy, nasal irrigations, breathing treatments and taking handfuls of medications. After school, while other children are outside playing with their friends, they are, once again, doing what they have to do to stay as healthy as possible.

Several hours are stolen from them every single day in an attempt to keep many, many years from being stolen from their lives.

Here's what Pam, Gavin and Jake's mom, has to say about the people involved as *CureFinders* - "What a gift you are giving my boys - the gift of hope, the gift of breath, the gift of life. I could never thank you enough for your dedication to this program."

Time is all we're asking for...

2009 Celebrity Chair, Chipper Jones will visit the top fundraising school in metro Atlanta April 28<sup>th</sup>!
