Cure Finders is the Cystic Fibrosis Foundation's newest fund-raising campaign to raise money for CF research. This fundraising program is full of fun ways for children to raise money to help children with CF. Teachers benefit from the simplicity of the change collection program that can be catered to single classroom or club activities or school wide activities. By encouraging students to collect change to help in the fight against CF, students are exposed to a variety of math, science, and community lessons. Get your school involved today!
