

Patrick's Patrollers Celebrates 20th Anniversary!

Twenty years ago, Rhonda and Tim Robinson created "Patrick's Patrollers," a Plaistow, NH Great Strides team in honor of their son Patrick, who was diagnosed with CF at three months of age.

Now a 200+ member team, Patrick's Patrollers is a force to be reckoned with, raising an astonishing total of nearly \$1 million over the last 20 years! Rhonda and Tim work diligently to fundraise and even created their own golf tournament, Pars for Patrick, which for the last eight years since its inception has been a tremendous success.

Patrick, a biomedical engineering major, is now finishing up his sophomore year at Boston University and is achieving his best grades ever.

The entire Northern New England Chapter would like to extend a huge THANK YOU to the Robinsons and everything they do to support CF research and treatment through Great Strides!!
