Get Involved!

Thank you for your interest in the Cystic Fibrosis Foundation! Cystic fibrosis (CF) is a life-threatening genetic disease that affects approximately 30,000 children and young adults in the United States today. Our mission to develop “the means to cure and control CF and to improve the quality of life for those with the disease” is an urgent one!

To continue to support our growing research and drug development efforts, it is vital that we expand beyond our existing community and reach new audiences.

As a volunteer for the Cystic Fibrosis Foundation, we need your help to:

- raise awareness about CF and the progress being made in CF research and treatments;
- enlist others to join the fight against CF;
- invest in the CF Foundation with a tax-deductible donation; and
- become involved with a special event committee.

Special events are a primary source for raising funds and awareness for our organization. By taking an interest in being involved, we can provide you with guidance and best practices to help you manage the most successful and cost-effective fund-raising programs. We are here to support you and deeply appreciate your efforts, talent and your commitment. Volunteers are the engine that powers this organization.

To learn more please contact the CF Office or complete our volunteer profile on our chapter web site!
