COMMUNITY CONFERENCES

Building a Virtual CF Community

Designed by adults with cystic fibrosis, their family members, clinicians, researchers, and more, these online community conferences provide the opportunity to **connect, share, and learn through open and honest keynotes, panels, workshops, group chats, and small group video breakouts** on topics that are unique to people living with CF and their family members. Whether your goal is to meet others with shared experiences or to learn more about a topic, there is a community conference for you.

Topics include:

- Aging with CF
- Family planning
- Emotional wellness
- Caregiver relationships
- Advanced lung disease
- Life on CFTR modulators
- Intimate relationships
- Workplace rights
- CF and body image
- Parenting a child with CF
- Hospitalizations
- School and CF
- Late diagnosis
- Siblings and CF
- Nonsense/rare mutations
- CFTR science and research
- Research on the horizon
- Lung transplantation
