

### The Cystic Fibrosis Foundation is here for you.

Today's health care landscape can be hard to navigate. A growing number of people with CF often find themselves making difficult choices about health care. The Cystic Fibrosis Foundation is dedicated to helping all people with CF get the coverage they need to keep their CF treatment on track.

The Foundation's Patient Assistance Resource Center connects people with CF and their families to the resources and tools they need to get health insurance coverage, understand and manage current insurance coverage, and respond to coverage obstacles quickly and effectively.

**Case Management:** The Foundation's Patient Assistance Resource Center works with patients and their families to overcome reimbursement obstacles. These obstacles may include coordination of benefits, filing an appeal, pharmacy exceptions or finding local resources for additional assistance for financial aid, charity care, oxygen travel and more.

**Technical Assistance:** The Patient Assistance Resource Center assists care center staff by providing guidance on benefit investigations, coordination of benefits, prior authorizations, appeals, and network and coverage exceptions.

To find out more about how we can help, patients, families and care centers can speak with a case manager at 1-888-315-4154, Monday - Friday, 8:30 a.m. - 5:30 p.m. ET.
