ENDURANCE EVENTS

CYSTIC FIBROSIS FOUNDATION

July 14, 2018

Kittery, Maine

Join us for our 17th annual bicycle event on July 14th, 2018, as we ride through some of the most picturesque and scenic terrain along the coasts of Maine and New Hampshire. CF Cycle for Life is a fully-supported ride with route options of 30 miles, 65 miles or a Century. From breakfast to our post cycle lunch party, you can enjoy fully stocked rest stops every 12-15 miles, bike mechanics for bicycle maintenance and repair and plenty of support vehicles to help you complete the ride. This unique event empowers participants to take action and demonstrate their fight in finding a cure for cystic fibrosis in a tangible, emotional and powerful way.

Important Note on Attendance at Foundation Events: To reduce the risk of getting and spreading germs at CF Foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection. Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation's attendance policy recommends inviting only one person with CF to attend the indoor portion of a Foundation-sponsored event at a specific time. For the outdoor portion, the Foundation recommends that all people with CF maintain a safe 6-foot distance from each other at all times
