GREAT STRIDES

GREAT STRIDES CYSTIC FIBROSIS FOUNDATION

Great Strides is the CF Foundation's largest fundraising event. It provides opportunities for all people within a local community to get involved forming teams with friends, family and colleagues. Walk day is a fun celebration that includes a healthy walk and festivities that participants look forward to year after year.

For more information: visit greatstrides.cff.org

5.18.19—Houston (Houston Zoo) 10.5.19—Corpus Christi (Cole Park)

ENDURANCE EVENTS

CF Climb for Life TBA—September 2019 BBVA Compass Stadium

The CF CLIMB at the BBVA Compass Stadium is a challenging and unique fitness event. Gather family, friends and co-workers to join you as you trek over 1,800 steps! After you cross the finish line, you celebrate your success with food, drinks, DJ and awards. And the fun doesn't stop there - all event participants are invited back that evening with a ticket to the Houston Dynamo game! This is an event for the whole family!

CYSTIC FIBROSIS FOUNDATION

**CYSTIC FIBROSIS
FOUNDATION**
ADDING TOMORROWS

**TOMORROW'S
LEADERS** 
MAKING A DIFFERENCE TODAY

CYSTIC FIBROSIS FOUNDATION

We're excited to share that the Cystic Fibrosis Foundation has launched a new national program, **Tomorrow's Leaders**, and we thought you might want to be a part of it! This program is designed to offer likeminded young professionals leadership skills and networking opportunities while they also make a difference in the lives of those with cystic fibrosis. This is a great opportunity for those with, or without a connection to someone with CF, to be more philanthropic, more social, work on their professional development and increase their own network of connections.

Contact Caitlin Sanders for more information:

Important Note on Attendance at Foundation Events: To reduce the risk of getting and spreading germs at CF Foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection. Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation's attendance policy recommends inviting only one person with CF to attend the indoor portion of a Foundation-sponsored event at a specific time. For the outdoor portion, the Foundation recommends that all people with CF maintain a safe 6-foot distance from each other at all times
