

# GOAL-e2 Extension (all cohorts, Visits 6-10) (GOAL-OB-11 - Expanded and Extended)

## Specimen Information

**Status: Specimens are Available**

This study is an extension of the original GOAL and GOAL Expansion studies. Specimens will be collected and banked at annual intervals for an additional 5 years while participants are receiving ivacaftor.

Visit #	Time From Baseline	Specimens Collected
6	+18 Months	Buffy coat, EDTA plasma, Serum, Urine, Whole blood
7	+30 Months	Buffy coat, EDTA plasma, Serum, Urine, Whole blood
8	+42 Months	Buffy coat, EDTA plasma, Serum, Urine, Whole blood
9	+54 Months	Buffy coat, EDTA plasma, Serum, Urine, Whole blood
10	+66 Months	Buffy coat, EDTA plasma, Serum, Urine, Whole blood

### Study Design

<b>Study Type?</b>	Observational
<b>Randomized Study?</b>	No
<b>Placebo Controlled?</b>	No
<b>Length of Participation</b>	5 Years
<b>Number of Study Visits?</b>	5

### Additional Information

<b>Phase?</b>	Not Applicable
<b>Study Sponsor?</b>	Rowe, Steven
<b>Study Drugs?</b>	N/A

### Eligibility

<b>Age</b>	6 Years and Older
<b>Mutation(s)</b>	One Copy F508del or No Copies F508del
<b>FEV1% Predicated</b>	Less than 0%
<b>PA Status</b>	Not Applicable

**Other**

Must have previous participation in cohort 1, 2, or 3, and 1 completed study visit following the start of ivacaftor (i.e. completed at least one of the following study visits: 3, 4, or 5).

**Study Results**
